Are you here today requesting an early vaccine for travel?

Here's what you need to know.

Check you are eligible to get your COVID-19 vaccine early. See the criteria right.

If you meet the criteria, you must make an application to get your vaccine at least **four weeks before you travel**. Your travel must be scheduled for on or before 31 August 2021.

There are a number of reasons for travel that will be considered, including compassionate grounds and for reasons of national significance. The application process differs and agency sponsors may be called on to sponsor your early vaccination.

If you're requesting early vaccination for private, recreational or commercial travel, or if you're going to a country that is approved for quarantine free travel, your application will not be successful.

Criteria you must meet

Before applying, you must:

- be a New Zealand citizen, resident, or visa holder, or someone unable to leave New Zealand since the international borders have closed
- be 18 years old or over (if you're 16 or 17 years of age, a guardian will need to apply on your behalf)
- not be able to delay or conduct the proposed activity through any other means (e.g. online video communication)
- have a flight booked on or before 31 August 2021
- be able to be fully vaccinated before departure
- be able to provide supporting evidence for all requirements.

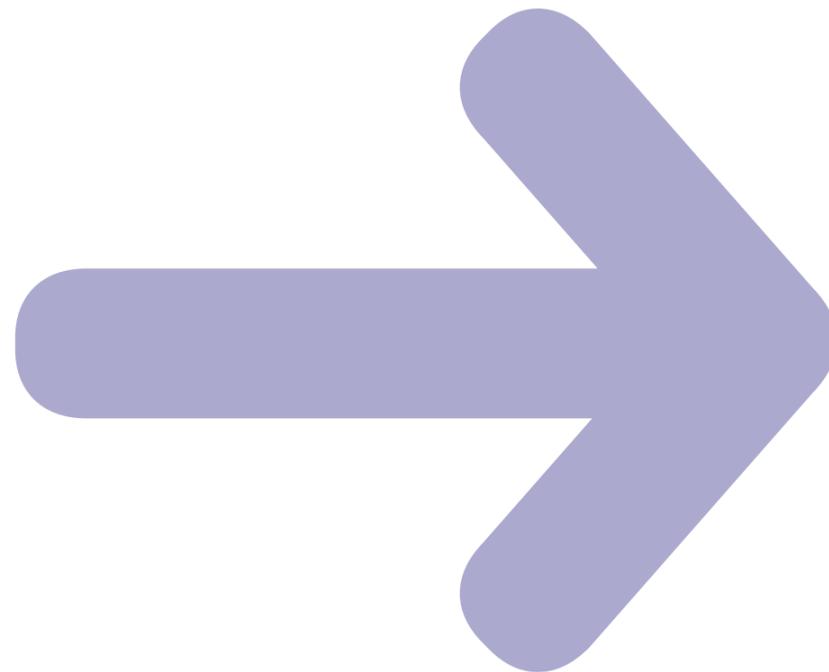

If you don't meet the criteria, it doesn't mean you can't travel – you just won't have early access to the vaccine.

What evidence you need to provide

If you believe you meet the criteria to apply, you'll need to provide evidence that you meet the requirements, including confirmed flight bookings and passport information. All documents must be in English and medical documents must be clear enough to read (preferably typed). They need to clearly state the name of the doctor or treatment provider and the name of the patient/s involved.

Visit **health.govt.nz** for more information on applying for an early vaccine for overseas travel.

Auckland Airport Vaccination Centre is closing

As scheduled, the Auckland Airport COVID-19 Vaccination Centre is **closing on Friday, 21 May**. Alternative vaccination sites are now available across Auckland for people to access.

What do I do if I have an appointment after 21 May?

If you have an appointment booked for a second dose after this date, we'll need to rearrange it. We're sorry about any inconvenience this may cause for a second dose.

How do I change my booking?

To make it as easy as possible, Healthline will contact you in the next week to change your appointment. You'll receive a text beforehand, to let you know to expect a call.

If you prefer, you can contact Healthline on 0800 28 29 26. However, there may be a wait time if caller demand is high.

Remember, your second dose is needed at least 21 days after your first dose.

Where will I need to go?

You can request an appointment at an alternative Vaccination Centre that suits you best – please check this website for details of our various vaccination centres: immunisation.northernregion.health.nz

*Thank you for your
cooperation.*

Vaccination Eligibility

This vaccination centre is currently only vaccinating these groups:

- Elderly aged over 65 years
- People with serious health conditions
- Disabled
- Border & MIQ workers and their families
- Frontline healthcare workers
