

OIA Request 14 March 2022 - Expected Clinical Hours

Hospital has many doctors at different pay scales and responsibilities. Many of which are demanding for the team. Paediatrics and General Medicine have been two of the demand rotation.

With regards to general medicine and pediatrics departments.

1) what is the list of senior medical officers designated to be clinical supervisors for medical students from the university if Auckland (i.e. who are the SMOs who can sign CSRs)

2) from above, what is the FTE of each SMO, and number of hours expected on site.

2a) if applicable, what is their salary as per Association of Salaries Medical Specialist contact

2ai) what has this been for the last 10 years

2b) if unavailable, what is their generic SMO payscale

to prevent burn often doctors get rostered time off

3a) how many days in a row can an SMO work as per contact

3b) what is the policy around SMO rostered days off

3c) what compensation is given when SMO do work beyond their day off? e.g. come in on a RDO

With regards to house Officer

4a) what are the run categories for house officers on paediatrics and general Medicine attachments, ergo number of expected hours

4b) what is their pay as per pgy# and run category from above

4bi) what has this been for the last 10 years?

4c) what is the maximum number of days house officers in the attachments above have to work in a row

4) what is the rostered day off policy for house officers in the rotations mentioned above?

With regards to trainee interns

5) how many hours per week are trainee interns expected to be on placement in runs above?

5a) as they are not paid, what protections are ensured trainee interns have proper rest and food breaks?

5b) how many days in a row are trainee interns expected to be on placement

5c) what is the dhb policy for rostered days off for trainee interns

5d) how does dhb manage the expectations for trainee interns to be present with their health and wellbeing in a demanding field

4a) what are the run categories for house officers on paediatrics and general Medicine attachments, ergo number of expected hours

At 14 March
2022 date of OIA
